Astronomy communication 101:

Very Young Children

Specificities in working with young children

They use all their senses: Dance, sing, draw, create
They are creatively building their universe
They know more than they can express
Contradictions and misunderstandings are OK

Working with teachers of young children

Empower and encourage them
Lower the threshold
Get the basics right

Working with visually impaired children

Shapes
Textures
Dynamics
Temperature
Atmosphere
Models & Environments
2D/3D
Sound

Resources for young children
